Professional History

Senior UX/UI Designer

JPMorgan Chase, Columbus, OH   Dec 2018 – Present

- I have experience designing employee-facing digital applications and guiding product and engineering teams on best usability and inclusive design practices.
- I facilitated design thinking exercises such as whiteboarding sessions, usability reviews, and customer satisfaction surveys, which helped build confidence in the team's design decisions.
- I delivered simple, tested, and user-centered interfaces compliant with accessibility standards (A11y), significantly impacting our user community.
- I collaborated with UX researchers to identify opportunities to enhance the user experience for our firm's employees. This included using Adobe Analytics to help implement the CASTLE framework, a UX assessment framework that focuses on the needs of internal product teams.

Designer

McGraw-Hill Education, Columbus, OH   Jun 2018 – Dec 2018

- My expertise in typography, web principles, and layout design was instrumental in creating design patterns that significantly enhanced the user experience across print and digital platforms.
- By initiating user testing with teachers, I developed a pioneering math product that met and aligned with teachers' goals and nationwide educational evaluation standards, making it highly relevant and impactful.

UX/UI Designer

DESIGNATION, Chicago, IL   Apr 2016 – Nov 2016

- I consulted with two Chicago start-ups, offering short-, medium-, and long-term research-based recommendations to generate user value.
